

Recommendation from the Working group of Cytology

The Paris System for reporting urinary cytology 2.0

JASC 2022; 11(2): 62-66

Changes in 2nd edition:

- Low-grade lesions are included in the category of negative for high grade urothelial carcinoma.
- new chapter on urine cytology of the upper tract
- issue of cellular degeneration is discussed in the criteria of all diagnostic categories.

Is the Paris system much used in Belgium? Do people know of this last update? Should we organise a survey?
